I'm wondering which is the right usage between the 1st and 1st in these sentences  
a The United States ranked 1st in Bloomberg's Global Innovation Index

b The United States ranked the 1st When is it proper to use 1st instead of first?  
For example is the correct sentence acceptable? Can you give more detail about  
why you 1st got involved? I tried finding some authoritative source Aug 23 2014  
Our numbers have a specific two letter combination that tells us how the number  
sounds

For example 9th 3rd 301st What do we call these special sounds? When were  
numeric contractions for ordinals first used as in 1st 2nd 3rd 6th instead of  
first second third sixth? May 19 2016 I like to say 1 as negative one

So should I say negative one index or negative first index? Which one is  
grammatical? Is there a way to avoid this problem altogether Apr 10 2015 Ground  
floor First floor In British English the floor of a building which is level with  
the ground is called the ground floor

The floor above it is called the first floor the floor above Using the cipher 0  
as an interval indicator is rare and confusing. Hour 1 = t=0 1 hour 2 the second  
hour = t = 1 2 etc ignoring the interval boundary naming problem but hour 0 is  
poorly defined

You're probably better thinking laterally and using the column heading pref or  
ung say Suppose that on the first floor of a building there are three separate  
apartments numbered 1 2 and 3 respectively

How can I refer to one of them when writing a postal address? I am wondering if  
Jul 17 2014 0 Technically the f in this context would not be capitalized

The same situation occurs when the floors of a building or vessel have non  
numerical designations like the noble floor that sometimes refers to the main  
formal spaces being at second or third floor level 1st or 2nd floor level in the  
European system neither word gets capitalized Oct 27 2014 I've read once about x  
stories Want to know if there is any difference between stories and floors

Or they are just alias for each other used in different variations of English  
language?.
