Sep 6 2019 I am anadults English teacher suggests that you teach multipleadults. On the other hand these sentences are both awkward. Possessives tend to work less well when long phrases are involved

In this case it can become less clear what the possessive is determining is the subject you teach adult s s English or English ? I have three age groups that I want to distinguish in my research project

They are as follows 18 45 years I have called this group youngadults46 65 years I have called this groupadults66 Mar 5 2014 Is there a specific word for adult offspring? If all of your children are now in their adulthood is there a specific word to refer to them? What s the other terms ifadultsget kidnap? Jan 13 2023 0 Is there a word that refers to any form of entertainment being made foradultsspecifically to enjoy rather than aimed at children that doesn t imply that it s not appropriate for children? Words like adult tend to generally give a connotation of being only foradults rather than the meaning I want Oct 28 2020 Sometimes people use age ranges to define groups of people like youngadultsare defined as people aged 1830

To me that sounds ambiguous imagine for example that Alice is born on January 2 1990 and today is May 1 2020 As per this link the word kidnap originated to denote nabbing away of a child

When and how did kidnap come to denote nabbing ofadults? Update Just found a link to a 1650 book that mentions Jan 7 2012 This is very common and proper in the southern United States

It is most often used by children speaking toadultsthey know well such as neighbors friends parents more casual teachers etc. Usually the adult will signal his or her preference on how to be addressed

Sometimes an adult for example some teachers will introduce themselves as Mr Ms last name instead which is also fine and Finally and probably best in your case you can use youngster s. Once more though this is a term that is used by older people towards younger ones

It is more used for teenagers and youngadultsthan for actual children but it also carries an implication that the person using the term is older than those she is describing Dec 10 2020 Let s imagine you have a table showing several age groups ofadultssuch as 18 25 26 40 41 60 etc

I ve found several different sources using different variations and cannot find a reliable source that confirms if one or all three are acceptable.
