Jul 6 2023 Telegram Desktop if your mic isn't working and nothing helps Alright so this is just a helpful post for google to index cause it took me a while to get to the bottom of this. So for some reason Telegram on Windows 10 wasn't picking up the mic even though every other app did

The obvious things to do Mar 1 2021 Telegram sdesktop app is supposedly open source but I still want to know this If I want to maximize my privacy OpSec should I only be using telegram sweb version rather their desktop app? Web version lacks features but I'm not installing an entire program

Thoughts? In order to run Telegram Desktop in the tray at the first launch you need to go to the Telegram.exe shortcut properties and set Run Minimized. That's all. But this doesn't work with Telegram Desktop from the Microsoft Store

Even if you choose minimized the app will still run as usual Jan 12 2023 Telegram Web Mobile PC This depends on the programs on your PC or phone if they have the capability to snoop data e.g

notification text from your browser or maybe more? May 20 2021 Same issue here on Arch installed Telegram from the Arch community repo

Sound works across all applications except Telegram Oct 8 2022 UI resizing issue on Win 10 desktop with 2 monitor setup with different resolutions Sep 11 2021 But don't forget you can also get the Telegram Portable version which acts as a separate entity from the regular Desktop app

So that's another 3 accounts

Not sure what the Mac ecosystem is like right now but last time I checked there were two apps you could install as well meaning both Desktop options net you 6 accounts Oct 8 2015 Where does Telegram PC Windows store pictures? I would like to clear these folders but I can't seem to find where it's storing pictures and other media messages

voice videos. Edit thanks for the answers everyone +1 for all Mar 30 2021 I'm not using the Telegram application for PC. I'm using Telegram Web in Chrome

So when I download a video where does Telegram Web save files on PC? Jun 23 2019 I guess lots of you know about workmode hidden command in Telegram Desktop but I've just looked at its Wiki and noticed some new hidden tweaks which allow you to change incoming message sound for example.
