She looks incredible in this dress screens from todays stream r alinity Official subreddit for Alinity Being annoying downvoting or disagreeing with someone even strongly is not harassment

However menacing someone directing abuse at a person or group following them around the site encouraging others to do any of these actions or otherwise behaving in a way that would discourage a reasonable person from participating on Reddit crosses the line Jun 11 2022 Our lab is going to change Siemens Atellica to Cobas Pro or Alinity

Which one do you like the most to work with? Pros and Cons? Thank you 1.4K votes 25 comments. 65K subscribers in the alinitycommunity

Official subreddit for Alinity Nov 8 2022 Hello I was wondering if anyone has experienced these with these instruments we are between these two platforms. We are a reference lab and plan to use both the immunology and chemistry sides. We don't batch and we prefer to do the test as they come

Our volumes fluctuate a lot. I have read that the assays last longer on the alinity but the ortho is a dry system. What has been your Alinity looks ok it's compact for sure but it doesn't feel like it's that much different than the Architect

It has the most comprehensive test menu of the new analyzers. Vitros is a decent instrument but I think it's outclassed by the others

I can't speak to Roche as I've never used one There are some who are mad at Pewdiepie for doing nothing to fight this girl's copyright claims and some think Phil was too nice when talking about her but that's about it

Nobody seems to be defending Alinity at this point May 26 2018 You guys have all heard the story about Pewdiepie and Alinity but it took a new turn The twitch streamer Alinity has married a canadian to live in canada and then divorced him. She publicly admitted it in a video as a funny joke

People got mad and want her deported from Canada for marriage fraud.
