Jul 24 2008 i ve been screwing with this all nightreading all the posts and info i could findi been downloading a torrent with 4 or so of 150 + seeds and getting 10 to 30 kb s down and 60 + upfix the port forwarding and now i m getting 160 170I know i set this all up before but i guess something glitched Feb 1 2007 Hey guys I am new here

I am just wondering how do I found out what my port is. Also what is the best port to use for utorrent I got good internet connection but utorrent is slow for me Sep 3 2007 Are there settings that I am possibly not aware of which will help me upload download faster

I am on Rogers Toronto Ontario speedtest shows my average download speed is around 7000 kbs and upload 500 kbs

These are settings I use Upload speed set at 50 Global max connections 450 Max connected peers per Torrent 200 number of upload slots 5 May 13 2006 Posted February 1 2007 I m on Rogers just north of toronto. I have two machines both running utorrent using the same internet connection

One the first client I changed the port number and now it s d I at about 170kbs and the other one is still at 0.5kbs And now it looks like im losing speed on the connection Aug 6 2013 Netherlands Switzerland CA North York CA Toronto Romania Sweden France Germany After enabling port forwarding and re connecting to one of the above gateways please hover your mouse over the System Tray or Menu Bar icon to reveal the tooltip which will display the port number

You can then enter this port into your software May 26 2021 Hi torrenters I have been using utorrent for 10+ years on a number of different installations from win 7 to 10 fully updated and been really happy with it most of the time but recently 12 months or so I have had odd things happening

I have nearly 1200 torrents that I am seeding and leave m Feb 4 2007 I m with Rogers in Toronto and have also noticed very very slow speeds even using the brand new version of uTorrent. I ve tried various ports with no luck

Don t know what to do Jan 8 2008 Again me! Some more thoughts for simple users like myself Use Switeck s conservative chart and all the other helpful material you can find here on the forum! Find your maximum upload limit in the chart use the numbers for the corresponding settings! Want to use higher settings? NEVER expect it will work at the maximum then! Why? A lot of connections = a lot of communication = a lot of Nov 22 2009 What icon is red? And there is no such thing as a best port

Whatever port you can get opened and isn t being used by anything else is a fine port well avoid 6881 6889 and 32459 as they re well known BitTorrent ports.
