Jul 15 2025 The annualinflationrateinCanadarose to 1.9% in June of 2025 from 1.7% in the previous month aligned with market expectations

Despite the pickup therateremained below the Bank ofCanada s mid point target of 2% for the third straight month consistent with the central bank s forecast that price growth should rise as tariffs and supply disruptions may threaten material shortages Mar 18 2025 The annualinflationrateinCanadajumped to 2.6% in February of 2025 from 1.9% in the previous month the highest in eight months sharply above market expectations of 2.2% and ahead of the Bank ofCanada s forecast of 2.5%

The surge was mostly owed to the end of goods and services tax GST and harmonized tax HST breaks halfway through the period triggering sharp increases in the price Jan 21 2025 The annualinflationrateinCanadaeased to 1.8% in December of 2024 from 1.9% in the previous month slightly below market expectations that it would remain at 1.9% to mark the softestrateof price growth since September

With the result inflationremained within or below the Bank ofCanadas midpoint target 2% for the fifth consecutive month adding to current expectations of further Trading Economicsprovides data for 20 million economic indicators from 196 countries includingactualvalues consensus figures forecasts historical time series and news.CanadaInflationCPINews was last updated on Wednesday December 3 2025 Dec 15 2025 The headlineinflationrateinCanadaheld at 2.2% in November of 2025 unchanged from October below expectations of 2.3% and still loosely converging toward the 2% threshold in the near term as projected in the Bank ofCanadas baseline scenario

Gasoline prices fell 7.8% year on year easing from the 9.4% decline in October as refinery disruptions pushed prices higher on a monthly basis Jun 24 2025 The annualinflationrateinCanadawas at 1.7% in May of 2025 remaining unchanged from the previous month and aligned with market expectations

Theinflationrateremained below the Bank ofCanada s 2% target for the second straight month holding the decline from the previous month after the removal of the federal consumer carbon tax

Price growth slowed for shelter 3% vs 3.4% in May Apr 15 2025 The annualinflationrateinCanadarose to 2.4% in September of 2025 from 1.9% in the previous month overshooting market expectations of 2.3% to mark the highestinflationratesince February

It was the first timeinflationcrossed the Bank ofCanada s 2% threshold in six months
