Start here to learn how to nurture and care for your baby from feeding and sleep to baby development and behavior plus baby products that help. Find information from BabyCenter on pregnancy, children's health, parenting, more including expert advice, weekly newsletters that detail your child's growth. You don't have to be a child development expert to give your baby a great start in life.

Research confirms what we've known all along: Love, attention, and basic care are what your baby needs and wants. To help your baby reach their full potential and grow into a happy and productive person, follow these steps:

Shower your baby with love and attention. Scientific evidence shows that love is crucial for a baby's development. Find out when your baby will start to grow hair, what happens to a baby's hair after birth, what lanugo is, and why preemies are often so hairy. See what to expect in the first weeks at home with your newborn baby, feeding, diaper changes, crying, sleep, and more. Use our checklist of baby product must-haves to make sure you have all the essentials to care for your little one from the newborn period to age 1. Apr 25, 2025. Key Takeaways: Natural birth means no meds, more movement! Moms who choose natural birth skip pain medication like epidurals, allowing them to move freely and try different labor positions for comfort.

It's not for everyone. If you have a high-risk pregnancy like carrying twins or dealing with health conditions, your doctor might recommend a different birth plan for safety.

Support is key. Find out how your baby's vision develops and what you can do to stimulate your little one's developing sense of sight. Looking for good ways to keep your baby entertained? Here are fun weekly activities for newborns and older babies. Fetal development is truly miraculous.

See how your baby grows in the womb and the stages of fetal development from fertilized egg to full-grown baby.
