Dec 8 2020 The rugged beauty of the Badlands draws visitors from around the world. These striking geologic deposits contain one of the world's richest fossil beds. Ancient horses and rhinos once roamed here

The park's 244,000 acres protect an expanse of mixed grass prairie where bison, bighorn sheep, prairie dogs, and black-footed ferrets live today. Apr 23 2021 The Badlands were named by the Lakota for their rough and unforgiving terrain, but today the park is proud to offer many accessible trails and overlooks so that everyone can experience the beauty of the Badlands. Mar 4 2025 Drive the Badlands Loop Road and keep an eye out for wildlife! Learn about all the different activities the park has to offer below or use the On This Page list to jump to a specific topic. Dec 21 2025 Backcountry camping in the Badlands can be an exciting adventure for prepared and experienced hikers.

Read more about rules, safety, and recommendations for backcountry campers here. Nov 12 2020 Interstate 90 (I-90) is located directly north of the park and provides access to the Hwy 240 Badlands Loop Road.

For those traveling west on I-90, take Exit 131 Interior and follow the signs directing vehicles south approximately three miles to the Northeast Entrance. Jun 28 2020 Badlands National Park contains a number of stories.

Whether you're interested in a 75-million-year-old fossil record, archeological finds dating back 12,000 years, or recent monitoring of the park's mixed grass prairie, you're sure to find something that interests you. Conduzca por la carretera Badlands Loop carretera principal 240, disfrute el paisaje en los diversos puntos panorámicos y observe los animales salvajes como venados berrendos y carneros de las montañas Rocosas. Apr 27 2022 An official form of the United States government.

Provided by Touchpoints Nov 10 2020 The Badlands began eroding about 500,000 years ago as the Cheyenne and White Rivers carved their way through the landscape.

They are the reason for the narrow channels, canyons, and rugged peaks of the Badlands which we see today. Jul 31 2020 Located in southwestern South Dakota, Badlands National Park consists of 244,000 acres of sharply eroded buttes, pinnacles, and spires surrounded by a mixed grass prairie ecosystem.
