Aug 6 2024 On average Americans expect to retire at the traditional retirement age of 65 a recent Schwab study found

But that number varies widely depending on the generation with the expected retirement. Explore how millennials are transforming healthcare from digital health trends to new patient expectations.

Understand the impact of this generation on the future of wellness Apr 13 2023 According to exclusive research for Newsweek over 50 percent of young adults would be more likely to consider having children if the cost of living was lower Mar 10 2023 The last time the U.S.

experienced a two year decline in life expectancy was during World War II. Three physicians share more about life expectancy Oct 12 2023 Climate change is impacting health in a myriad of ways including by leading to death and illness from increasingly frequent extreme weather events such as heatwaves, storms and floods. The disruption of food systems increases in zoonoses and food, water and vector borne diseases and mental health issues Jul 26 2022 The youngest adults in the workforce are beating out their older counterparts when it comes to saving for their post working years Nov 5 2025 What does Gen X's retirement picture look like? I'll dive into a number of statistics that explore Generation X's readiness for and mindset about retirement.

And for those who feel they're behind regardless of age I'll offer some tips on how to get on track.

But the blurring of boundaries between sociality content self and brand promotion that is native to Gen Z jars with Gen X's desire to connect to their closest ties rather than a wider esteem boosting network Nov 30 2022 What do healthcare providers wish people would ask to facilitate healthy aging? Read our decade by decade guide to screenings, vaccinations and questions to ask your primary care provider Aug 21 2024 A recent analysis by Morningstar's Center for Retirement and Policy Studies projects that 45% of US households run the risk of falling short financially if they retire at 65 or 54% if they Sep 22 2021 Two recessions before the age of 40, student debt and soaring cost of living kept millennials from building wealth even though they're getting paid Nov 3 2023. When we investigated why only children remain rare despite plunging birth rates, we instead stumbled upon answers to a bigger mystery Nov 18 2024 Men's health needs change through the years thanks to shifting hormones increasing disease risk and lifestyle changes.

Here's how to support your health at every age. Your eyes and vision change over time and many adults over 40 may start to have problems seeing clearly at close distances.
