Whats odd is we had VS already setup with the correctsource but nuget.exe wasn t seeing it. We added thesourcevia this command and then things worked

We checked the sources in VS again and either the Add replaced the existing one or its storing sources somewhere else and it s not the same as the sources in VS IntuneWinAppUtil c <setup_folder> s <source_setup_file> o <output_folder> < q> This will generate the .intunewin filefrom the specifiedsourcefolder and setup file

For MSI setup file this tool will retrieve required information for Intune. If a isspecified all catalog files in that folder will be bundled into the .intunewin file Sep 12 2023 Acontentsourceis a set of options that youuseto specify what when and how to crawl
