Jun 22 2004 Big rockwas the ultimate fish factory when it first opened. I ve caught more than a dozen 5 to 6 pound bass and couple of 2 3 pound smallies

over the years the fishing pressure has pushed the bass deeper and deeper Jun 27 2003 I m looking forbiga place to buyBIGgoldfish like 4 6 for a flathead bait

So I don t wan t the fancy kind that cost 10 bucks! Does anyone know where I can get goldfish like this? May 27 2008 Where isBig Rock? In light of the fact that the earth is 2 3 water and 1 3 land it is clear that our time should be divided

2 3 fishing and 1 3 work Jun 7 2004 My best came from Stone which is just down the channel from Sand on the Sugar camp chain. Watch out for thebig rockin the middle. Almost forgot about Pickerel a 42 from there but verified a 46 caught there

I ve never caught a fish I didn t like Sep 8 2002 Have lost many a jig here though as therockformations are uncertain. The one thing I haven t figured out is how to get to the access road on the other side of the lake where structure looks a little better

I like this quarry because if you don t have luck you can walk 10 feet to the I M canal and catch a cat or bullhead for some excitement Aug 22 2004 The two biggest contributors to outboard repairs are probably them twobig rockpile points directly across to the right of the South ramp non cemetery ramp

If you stay to the right of that buoy when going out you will be okay May 22 2006 went down to the kank yesterday the river was moving pretty fast and it was high muddy i didnt get any thing i missed a couple the person i was fishing with got 1 nice smallie and a prettybig rockbass all in all still had a great time

every thing we got hit on were minnows Aug 14 2007 Ed what time is the StarvedRockshoot set for? Click to expand We did this one last sat. Joe should change the thread now to last weeks SR shoot

The next shoots are the Carptrek shoot in N E Indiana this Fri night 10pm and the 3 rivers end of season shoot at 3 rivers the night of the 15th. Going to try and make that one abigone! Apr 10 2011 A breakline is an area where you have faster water moving past slower or still water

Anything that sticks out into the current like a point of land an island a bridge piling abig rockor a fallen tree will force the current to go around it. That causes a slack water an eddy area right behind the obstruction Oct 6 2002 A lot ofbigcats hang around there also

If you are gonna head up there get a few dozen large walleye minnows and you will catch a lot of fish. Directions Hop on I 90 and head towards Janesville WI
