I believe Parasite is considered a masterpiece for many reasons and I will name a few i. it s a great example of how a director can completely alter your view point on a mater with quick fire refuting plot twists. ii

it s one of the most valid and correctly aimed modern movies Oct 19 2021
Everyone is a parasite to everyone else. Everyone views everything as a thing to suck off of

The rich family the Parks are parasites who feed off their servants in that they see them as being disposable and only having any value as tools rather than people

To them servants should be ready to serve their every whim and want I rewatched Parasite the other days and i dont think i have seen movies similar to it. I would love to see some more movies like it. A list would be great

Is there a point to not use them? Is there an achievement or other little tidbit? Other than my roleplay reasons I am just genuinely curious. I am aware of the achievement to use them. I know that will be brought up. Edit Why is this set to spoiler? I didn t do that That is a Layer 2 parasite

The snow in layer 2 is actually living organisms. Around once per minute one will spawn on you. If five spawn on you they start to hatch and they will instantly kill you if they successfully hatch

To remove them go to any of the lanterns around the map and press E Someone said it could be an intestinal parasite and suggested trying a product like this to flush them out but I don t know to what extent this is really safe scientific

What do you guys think? Has anyone here ever tried something like this before?
