In terminal mode joy2key sends the ascii character given on the command line that is joy2key buttons a means send lowercase a when the first joystick button is pushed. In raw console mode please consult the document rawscancodes included in this distribution for the proper scancodes

Options X Send X events Jun 18 2020 The bestLinuxalternative is AntiMicro which is both free and Open Source. If that doesn't suit you our users have ranked more than 10 alternatives toJoy2Keyand four of them are available forLinuxso hopefully you can find a suitable replacement

Other interestingLinuxalternatives toJoy2Keyare QJoyPad SDL2 Gamepad Tool and rejoystick Dec 20 2025 Due to a problem with the d pad a.k.a. hat being recognized as another axis Joy2keywas used as a workaround

Since kodi version 11.0 andjoy2keyAUR 1.6.3 1 this setup no longer worked and the following was created for letting Xorg handle joystick events. First install the xf86 input joystick AUR package

Then create an X configuration Contribute to joolswills joy2keydevelopment by creating an account onGitHub I want to usejoy2keytomap keyboard keys to joystick buttons but can't figure out exactly how to use its command line interface.joy2key dev dev input js0 terminal That command shows what to press but I can't figure out how to map the keys since the instructions are not clear joy2keymonitors the joystick normally dev input js0 and sends keyboard events to an X window terminal or raw console

In the case of X xwininfo 1 is used to retrieve the window ID which should not be a problem as this is a standard utility in most X11 distributions
Downloadjoy2keypackages for ALTLinux Debian Mageia OpenMandriva Slackware Ubuntu
In this tutorial we learn how to installjoy2keyon Ubuntu 22.04.joy2keyis
Translate joystick movements into equivalent keystrokes Joy2keyallows one to choose keyboard events for joystick axes and buttons so that a joystick or gamepad can be used with an application that doesn't have native joystick support Jun 30 2024 The bestLinuxalternative is AntiMicroX which is both free and Open Source

If that doesn't suit you our users have ranked more than 10 alternatives to JoyToKey and five of them are available forLinuxso hopefully you can find a suitable replacement. Other interestingLinuxalternatives to JoyToKey are JoyShockMapper xboxdrv xpadneo and xone.
