Dec 25 2024 Bone and muscle pain Enlarged liver spleen or lymph nodes Depression mood changes or problems concentrating Also further down systemic mastocytosis can affect your bones and bone marrow which may account for the hypocellularity

There may be validity for your doctor to suspect mastocytosis based on your symptoms and test results Feb 3 2024 But they are all part of the process to help you find out what's going on in your body with the low hemoglobin and enlarged spleen and liver

Because our bodies are so complex it can take some time to diagnose blood conditions Feb 21 2023 An enlarged spleen is characterized as one that is larger than 12 cm approximately 5 inches in length or over 400 grams approximately 14 ounces in weight

Splenomegaly usually occurs as a result of secondary causes rather than primary diseases of the spleen and is considered a rare condition but can affect anyone

What causes splenomegaly? Jun 9 2025 Yes you can potentially remain independent after radiation therapy for an enlarged spleen but it depends on the cause of the splenomegaly the specific radiation treatment and your individual response to treatment

Radiation therapy can help shrink an enlarged spleen and alleviate symptoms but it can also affect the spleen's function and increase the risk of infections Mar 19 2025 Hey y'all my mother just had a major cancer surgery at Mayo that removed her gallbladder a third of her stomach appendix and spleen

She is now trying to fully understand and live with these new changes to her body

For those of you who had a splenectomy how have you changed your lifestyle? Diet personal health precautions She is worried about going out in public and catching a cold Dec 29 2024 We are concerned about enlarged spleen and increased AML risk among other concerns

He has developed severe bone pain some headaches easy bruising even before Filgrastim and he's an easy bleeder

What are your experiences and what does your doctor say about it? Thanks! Interested in more discussions like this? Go to the Cancer Support Group Sep 15 2025 Hi anne7573217 I can share with you that I had a total pancreatectomy splenectomy and all of the trimmings about 6 years ago

I had a similar concern at the time and now just follow the recommended vaccination schedules pneumonia RSV Flu Covid etc and have not experienced any serious illnesses as a result. My primary surgeon also indicated that the spleen
