@broken vows@ Why are there so many broken plurals in Arabic? computational linguistics Word breaker algorithm.

Original URL: https://tools.orientwatchusa.com/broken-vows.pdf

Oct 6 2024 Getting rid ofbrokenplurals from formal Arabic would have been a radical departure from most varieties of spoken Arabic

What is the origin of the numerous Arabicbrokenplural patterns that would account for so many different patterns? Dec 21 2025 Given the nature of any language the words or sentence can bebrokendown into who what where when how

how to design this system and function that continuously breaks information to above format based on information it has already and also updates itself with new information dump? Aug 6 2021 So I ve been reading for about two hours now about pidgins and creoles

CanbrokenEnglish such as Engrish be considered a pidgin? Or do they fall into another category? May 19 2017 There is a tendency in some of Romance and Germanic for historical vowel length to be associated with open mid close mid or tense lax distinctions and vowel length is cross linguistically correlated with syllable structure short if closed

addresses loi de position and assembles a possibly complete list of cases of such a correlation in allophony

Even in French it is not limited Oct 22 2021 Washed andbrokenas used here are not generally considered inflected forms of their respective verbs in English they are adjectives that happen to be identical in form to the past participles of those verbs

In this case we usually say that the adjective is derived from the participle by zero derivation which is exceedingly common in English

Some would also consider participles Jan 16 2024 Is this true for every natural language or are there language s where it matters how a word isbrokeninto syllables? In that case how do you tell syllables apart in spoken language ? I would prefer examples in languages as closely related to English as possible if any exist Jun 9 2025 Unless both the absolute form and the form with <> are an unusual case of analogical hypercorrection extremely unlikely considering the nature of Masoretic hypercorrections it seems that this segolate like all others had a broken plural

So why is the third radical in a plosive? Why isnt it fricated? Jul 5 2023 Arabic nominals in general can have one or morebrokenplurals

In light of this is there a name for this morphological phenomenon? I see it as kind of the reverse of syncretism wherein we observe multiple inflectional feature combinations sharing the same form whereas here we see multiple forms for the same feature combination i.e
