I ll predict that you ll seeinNC something similar to what has happenedin Abustedthru hull sounds likely or a hose burst and a thru hull valve seacock was seized

I replaced all 8 ofthethru hull valves on my boat when I bought it every single brass one was seized replaced with stainless Ive got a 2015 Sea Hunt bx22br that has a leakin thefresh water wash down system. When i pour water intotheinlet it is coming out ofthehose before it hitsthetank

I cant accesstheback ofthetank. Has anybody had any issue with this and do you have to takethetank out to fix it? Thanksinadvance TheBoating Forum Snapped one of my powerhead bolts. Can t get my powerhead off 2002 yamaha Z200

Got 5 ofthe6 long ones out the4 shorts andthe2 nuts. The6th long bolt snapped about a half inch fromthehead. Theremainning shank is holding this powerhead tight

Any suggestions? Tried driving it up with a I have two under water lights mounted onthetransom that have appeared to bebustedfrom freezing I guess they leaked? I began to replacethelights buttheglue or silicone have made this five minute job turn into a project

I have removedthescrews fromtheoutside butthesilicone used to sealthepower wire running throughthetransom was obviously applied very liberal and has adhered to Jul 12 2017 Thethrottle cablebustedI believe when I broughttheboat up to my cruising rpm of 2900

When we arrived attheisland I went to ease offthethrottle no stopping yes cominginhot. I ended up shuttingtheboat down tossingtheanchor and it was then that I diagnosedtheproblem All times are GMT 7. Thetime now is 02 16 PM Copyright 2025 MH Sub I LLC dba Internet Brands. All rights reserved
