Cannibalism is the act of consuming another individual of the same species as food. Cannibalism is a common ecological interaction in the animal kingdom and has been recorded in more than 1 500 species. [1] Nov 7 2025 What is cannibalism? Cannibalism is the eating of human flesh by humans

It is also called anthropophagy. Cannibalism, the consumption of another by an individual of the same species, is a widespread practice amongst many animal groups.

Human cannibalism or anthropophagy, however, is less common but has been found in many diverse groups ranging from hominids to Crusaders and soldiers in World War II. Cannibalism, the eating of one's own kind, is a practice that occurs in both humans and non-humans. Cannibalism is the act or practice of eating members of one's own species, and while it does exist in non-human species, the term most often refers to human beings eating other humans. Human flesh may be consumed as a food or as part of a ritual, especially in order to obtain spiritual power over enemies or to pay respect to dead relatives. Endocannibalism

The practice of cannibalism goes back to early history and was found on all continents. May 26 2024. Cannibalism, the act of consuming the flesh of one's own species, is a practice that has occurred throughout human history and across many cultures.

Despite its widespread occurrence, cannibalism remains one of the most powerful and enduring taboos in modern society.
