Mar 31 2015 Is Edmunds true market value tool accurate in assessing car price? I  
m looking to buy a used car with a sticker price of \$30k but Edmunds says it  
should be closer to \$23k

Yet every listing for this particular vehicle and trim level across the country  
is right about \$29 31k May 11 2024 As background I m new to the process and I m  
in the market for a car mainly for basic transportation

I ve moved on from the used market gamble and its prices deciding to buy the  
cheapest new car as a way to kick the can down the road for a while Aug 16 2023  
The current market is changing daily sometimes in the 1 000 s of dollars

KBB and Edmunds are always playing catch up and don t really reflect the current  
market Nov 8 2013 The Edmunds value in excellent condition is \$5 775.00 private  
seller Kelly Blue Book values the car at \$9 904.00 in excellent condition The  
asking price of the car is \$12.5k I am a bit conflicted The car is a 2001 Audi  
S4 auto with 51 000 miles I don t want to get ripped off and I don t want to  
lowball this person Learn more about { \$Tag.Name} at the Edmunds Car Forums!  
Read real discussions on thousands of topics and get your questions answered Jul  
29 2016 However using Edmunds for the True Market Value Price I noticed that the  
TMV is actually lower than the invoice price? Here s a screenshot

The same goes for TrueCar. My question is is this a mistake or are people  
actually buying this car for below the invoice price? Nov 6 2014 True car allows  
you to enter in which incentives you actually qualify for

It also gives you the average paid what is high and a guaranteed price which is  
around the average depending on the market Feb 19 2014 The Edmunds True Market  
Value Price for the model in question with included options is \$25 432

Two thirds of this figure the dealership and Edmunds portion is \$16 955 Aug 8  
2014 I found some dealership listings near me for Certified Pre Owned Nissan  
Rogues. Edmunds True Market Value calculator has one specific one listed at \$18k  
with 36k miles on it. The listing is for 17k

Does it make sense that it would be 1k lower than what they could get for it?  
What am I missing? There s others that are similar Mar 1 2013 You should be able  
to find a dealer that will sell you the vehicle for just a couple hundred over  
invoice +fee s

use Edmunds True Market Value to figure out a fair price for the car What is sum  
of2and5? The answer is 7
