Jul 28 2025 In around July 2025 VSCode introduced some kind of AI autocomplete. I want to turn it off. All the previous options like `github.copilot.enable` or `github.copilot.editor.enableAutoCompletions` don't work. Jan 16 2025 Clone or download the extension code to your local directory

In your local directory with the copy of the product run command `vsce package`. This way you can recreate a .vsix version of the package not only for the version presented at the Visual Studio Marketplace but for any earlier release. May 6 2023 16 I have been having some issues with my VScode

I am unable to open it and instead I see a message that `thecode.exe` file has been moved or deleted

I have tried to reinstall VSCode from the official website but it failed to download and showed a couldn't download message after reaching 100%. Add codesnippets to a word document with syntax highlighting for easier visibility and differentiation of code and other text. Codesnippet shall be inline with other text. Codesnippet shall break across pages smoothly without any extra effort. Codesnippet shall have a nice border. Codesnippet shall have spell check disabled. I cannot find a way to comment and uncomment multiple lines of code in Visual Studio Code

Is it possible to comment and uncomment multiple lines in Visual Studio Code using some shortcut? If yes 279 I want to indent a specific section of code in Visual Studio Code

I read How do you format code in Visual Studio Code? that gives shortcuts to indent the whole code but it doesn't work when selecting a specific section of code

I tried `Ctrl + Shift + F` after selecting some line in my code but the whole file is indented. May 22 2013 4 For the problem `csc.exe` exited with code 1073741819 I repaired Visual C++ 2015 Redistributable x86. This worked for me. repair Visual C++ 2015 Redistributable

I found about this problem when uninstalling and then reinstalling VS2015. After the setup is completed it says that some items are not installed correctly. Jun 23 2025 I am not able to download any extension via VSCode on my office system due to the proxy

Is there a way that I can do it manually by downloading and placing the downloaded files at the right place? Adding `thecode.exe` to your PATH for use in the Git Bash or MSYS2 terminals. If you're trying to run `thecode` command in Windows in a Git Bash from Git for Windows terminal or in an MSYS2 terminal and VSCode is installed then you may just need to add `thecode.exe` to your PATH. May 12 2025 I updated to the version here where it installs it per user instead
