2025 For the last few weeks I've had a problem getting FS2020 to shut
down completely

As a result when I try to start it up again the next time I get the Sim is
Already Running message that won't go away

If I shut the sim down using the Quit to Desktop option I get the Are you sure
you want to exit Dec 5 2024 Ever since FS2024 was released I have been searching
for an option to fully disable 2024's native ATC

to uninstall and reinstall MSFS due to a problem that I can't seem to fix after

update had specific instructions on how to best remove clear install. Depending
on if you bought the Sim from the store or steam

Best just to go to the official forums and in the top right search for Clean
install. There are directions on how to do the clean install Apr 27 2025 Posted

Does it need XPUIPC or something else? P2A and Zibo are completely word not
allowed with each other! Dec 12 2020 Greetings If anyone has done this could you
share the proper procedure that you followed and how it worked out for you

I just don't want to screw anything up that'll cause a problem re installing and
getting airborne again

I'll never be accused of being the sharpest knife in the drawer with th Mar 16
