Jul 24 2024 This new experience combines the foundation of Bing's search results with the power of large and small language models (LLMs and SLMs)

It understands these search queries, reviews millions of sources of information, dynamically matches content and generates search results in a new AI-generated layout to fulfill the intent of the user's query. Sep 4 2025 Microsoft is testing expandable related searches in the Bing Search results.

When you hover your mouse cursor over the related searches, Bing will load more below them. Transforms the traditional Bing search results page from a list of links into a more engaging magazine-like experience that's both informative and visually appealing. May 30 2025 Bing's Testing Initiative: Bing is testing new headers for its Related Searches section such as "Get detailed results," "What other people are searching for," and "Take a deep dive" to make the feature more action-oriented and engaging. Jun 6 2025 Learn how to transition to SerpAPI's Bing Search API to reduce disruption to your service.

The official Bing Search API is soon to be retired on 11th August 2025 or has already been retired, depending on when you're reading this, and you may be searching for a suitable replacement. Apr 1 2025 Microsoft is testing a new design and user experience for the Bing site links and related searches.

The site links have this hover-over shadow effect, while the related searches go from a "Today we're launching an all-new AI-powered Bing search engine and Edge browser available in preview now at Bing to deliver better search, more complete answers, a new chat experience, and the ability to generate content." Oct 16 2024 Following changes this summer, Bing has announced another update to its generative search experience.

It's all about enhancing informational queries, giving brands a new way to connect with customers across the evolving search landscape. Oct 1 2024 In July we introduced an early view of generative search in Bing, and today we're taking the next step as we continue to evolve our vision of the future of search. In addition to core algorithmic search functions, Bing provides users with additional features to help provide additional context and information and enhance the search experience.
