Yahoo is the worst hacked many times over the years no concern for security of data or accounts. Anyone still using cox for email needs to stop ignoring things
Apr 5 2020 Hi all When I open a new tab or use an existing one to search for something I get redirected to Yahoo search

I m having this problem for 2 months now I think even though I haven t downloaded any suspicious lately I can t find out what the cause is

I don t get any other weird things like a changed homepage or random tabs just the once in a while Yahoo redirect instead Google search The r yahoo Yahoo makes the world s daily habits inspiring and entertaining! If you need help accessing your account or have customer service Oct 2 2020 This problem started happening about a month ago

Whenever I open a new Chrome window or tab in both a regular window and incognito window instead of binging me to the google search page it brings me directly to the yahoo search page. Whenever I go to do a search it always defaults to Yahoo

Ive gone through all my settings Apr 30 2022 r yahoo Current search is within r yahoo Remove r yahoo filter and expand search to all of Reddit Nov 3 2022 I contacted Yahoo! Support which was a joke because after several weeks it became clear that they were only interested in pointing fingers at other things that might be causing it instead of acknowledging the clear design flaw in Yahoo! Mail

I don t see the pop up in Firefox but it s still horrifically slow worse than in Chrome In 2016 they shut down Yahoo Games and gave the same stupid vague reason like they later did with Messenger

The reason the Yahoo Games shutdown is significant is because it was a service that made Yahoo seem like a cool place to play games and chat with friends Aug 7 2023 I m not sure if this is the right place to post this. Every time I search search something on chrome it switches to yahoo

Google is my default browser. I ve tried resetting my browser settings and my PC. I ve also removed yahoo from my browsers but it still switches. Any solutions? Jun 6 2024 My business email is an yahoo email

I can access it through login.yahoo. For the most part this all works fine Chrome both mobile and Jan 12 2023 Because I ve been locked out of my account that I ve had for over 10 years and I don t have the number that s on it anymore so I need to get back into it somehow.
