I know most guys like to cum inside but for me it's so incredibly sexy and primal

It makes me cum and it's the incredible euphoria of both coming at the same time and having such close contact even at the cellular level. Hi yeah it seems like a cold technical dry question but I would really like to understand or have an idea of what happens for a girl when I orgasm inside her because for me it is a really intimate feeling that will leave a peculiar bonding

How would you describe what you feel? Do you feel the intensity of the shot? The volume of semen? Its warmth? Something different with his penis just Honestly I don't cum inside a lot of guys but when I do and he asks me to like in the case with you heck do I feel pretty special. Bust a nut in me

I always wear pant liners and I usually use a boric acid suppository to keep my pH all good May 20 2019 Just picture yourself telling a woman I can't promise I'll be able to control myself enough not to cum inside you after you specifically ask me not to

How do you think she would react? In most places ejaculating inside a woman against her will is considered rape even if the sex is consensual. Right now I'm with a partner who I use condoms with and I much prefer it. We sometimes have sex without a condom first but he finishes with condom on

If I do have cum inside me I go pee then I'll sometimes use a finger to remove any additional. Then panty liner. Reply reply jonesie1988.
