trueFor fans of dirty talk videos who love it when their partner tells them to cum insideme or who love saying it! Hi yeah it seems like a cold technical dry question but I would really like to understand or have an idea of what happens for a girl when I orgasminsideher because for me it is a really intimate feeling that will leave a peculiar bonding

How would you describe what you feel? Do you feel the intensity of the shot? The volume of semen? Its warmth? Something different with his penis just Post titles must contain a timestamp for when the cum insideme or other similar words occur in the video. Reposts are okay

However content that has been posted within 30 days or that seeks to gain upvotes by reposting previously successful threads will be deleted Regardless of the studies once any SO started allowing me to cum inside her the relationship changed dramatically to the point where it seemed to be the main focus once we got into a sexual situation Why does he want to finishinsideme? He knows Im not on birth control

He wants a family some day and said he wants a relationship with me and has feelings for me but it hasnt been long since weve started talking

So why does he want to cum insideme? Is it the thrill of it? Does he not care if I get pregnant? Is he trying to trap me? The warm feeling of the cum filling her makes her go crazy

And the aftermath of the whole scenario when she is filled with cum it s like being wrapped around in a warm blanketinsideout idk what it means There isn t a proper way of intercourse. If they cum in you it doesn t matter your position or how you clean after. It s always going to be a risk

And yes sperm can stay alive for up to five daysinsideof you mayo clinic Just keep in mind the pill isn t 100% and other types of BC like condoms do you protect you from other risks r cuminsideme For fans of dirty talk videos who love it when their partner tells them to cum insideme or who love saying it!.
