Mar 3 2021 I completed my first run the other day where I went through
theDerelictDistillery for my first time

I had only ever attempted the boss before and I failed miserably Only got 1
third of the way through but after using the Barrel Launcher I breezed through
the boss Jul 18 2023 The otherderelictfreighters need to be found with a homing
beacon purchased from the scrap dealer in the space station which are the ones
you can explore and salvage loot from Jul 24 2020 The other is
thederelictfreighters added in the Desolation update recently

These to my knowledge appear specifically if you buy a scanner from the scrap
dealer NPC on space stations the first one of the day is 5 million units the
second 10 and the price resets every day activate it and then pulse jump until
it says it detected something Apr 21 2021 Orokindderelictis the old name for the
normal mission nodes on Deimos

They don t require the keys anymore. Though you would still need the Dragon keys
from clan I think if you want to open thederelictvaults to farm for corrupted

vacant for 2+ years in order to qualify for the grant maybe that s where the 2
years or more for the grant to be paid part of your question comes from? Edit
replies below are saying occasionally aderelictship can be repaired and taken so
it s worth a shot

I ve yet to find a namedderelict e.gDerelictPik Up like u Competitive_Tomato_1
mentioned below so I m wondering if there is a difference between DerelictShip
and DerelictInsert Ship Type events Aug 15 2022 How manyderelictare there? I m
looking forward to exploration to be a thing in the game and if there are
outposts dotted around I d happily fly for hours looking if there was a chance I
could stumble across something Dec 5 2023 Reference sheet covering locations and
how to get there and what s there for all the known derelictsettlements made it
last patch but been to about half of the settlements again this patch and I can
t find any changes beyond Picker s Field getting a QT marker

Big credit to verseguide for most of the data this is mostly verseguide data
compiled along with my own observations and May 4 2021 Derelictfreighters have
the same hazard protection drain as stormy planets or extreme hazard planets
during non storm periods

If you lift off an extreme hazard planet and immediately run aderelict then on
thederelictyour hazard protection will show extreme hazard.
