Apr 24 2025 I was looking at the Polaris Ranger 1000 but several people have said the HD9DPSwould be a better choice for higher torque at lower RPMs and general farm and ranch chores. I don t need highway speeds from it but I would like to do 25~30MPH between fields on paved roads

I have read several Nov 21 2024 The next morning i started the bike ran it for a little while and thedpslight came back on i looked in the display for any code and found P0562 and P1F00

P0562 is for a low voltage but i checked the battery and it is at 12.8v and the bike is charging at 14.4v so i dont understand why is this code still there? Oct 8 2024 Hi guys. First off English is not my first language so please bear with me. I have a 2021 Can Am Outlander Max XT 650 T

Yesterday when I powered up the power steering didn t work and the display reported there was aDPSproblem. I switched the engine and ignition off and then back on again Dec 8 2024 Hey guys. Just picked up what i though was a great deal on a new hd7dps

Love it but randomly it stalled on me when going from reverse to forward and sometimes idles rough. And occasionally has a rough idle. The dealership did say it sat for a year and the gas did smell a little funky

Think Apr 9 2022 Due to Russian sources being blocked and other sources hard to find I am hosting manuals and linking to them here. I will be adding manuals as I get them. I will be grateful for anyone who wants to add manuals to this thread. I will add them to this first post

If you download a manual please Mar 7 2023 So I found out from my dealer today that they have an HD10 XT due in soon. Originally I had put my deposit on an HD9DPS. Quite a few items included on the XT I was planning to add to theDPSlike the roof winch bumper and under seat storage

Now Im wondering if the cost difference to step Aug 19 2020 Im new to the Can Am market had two Honda ATVs and thinking about getting into a Defender HD8 XT. Can anyone explain what the differences are between theDPSand XT? Seems to be around a \$2k price difference

Is the XT worth it? Any insights regarding the HD8 would be really helpful too
Jul 16 2024 DPSModule If the module is bad it might need to be replaced2 Wiring Issues Inspect the wiring harness for any signs of damage such as chafed wires or bare metal touching the frame1 Another thing you may consider is checking with a local dealer and see if there is a update available from BRP concerning your issue Apr 9 2022 Howdy gents Went for a ride today and halfway through I started feeling the handlebars stuttering so I stopped and indeed the handlebars
