Ad free experience with extra content and features Oct 20 2025 Generally it can take anywhere from 8 to 12 hours to smoke a 10 lb pork roast with the average cooking time being around 10 hours

However this time can be shorter or longer depending on the specific conditions. The smoking time for a pork roast varies considerably but generally expect it to take between 6 to 12 hours at 225 to 250F (107 to 121C)

This range is influenced by the size and cut of the roast, desired internal temperature, smoker efficiency, and even the weather conditions on the day you're smoking. Apr 7 2025 The cooking time will depend on the weight of your pork roast, but a good rule of thumb is about 30 minutes per pound.

Aim for an internal temperature of 145F for juicy perfectly cooked pork. Jul 9 2025 When you put it in the smoker, the low and slow cooking finishes the meat perfectly. This is one of my smoked recipes that takes 8 hours to cook, suited for a weekend cookout.

Don't have that much time for cooking? Try this chicken breast or pork loin recipe. Jul 15 2024 Smoke the meat for about 5 hours with the fat side up or until the internal temperature of the meat registers 190F.
