GG.deals helps you find the best deals on digital game downloads. Join our giveaways track new sales synchronize your Steam collection Feb 24 2021 And gg.deals including keyshops by default and putting them on the same level as official stores essentially makes that decision for them

If you're going to make keyshops opt out at least please try to educate players on what are the implications of using keyshops

gg.deals used to be much better at this keyshops were on a separate page May 19 2025 We've launched the GG.deals API now available at <https://gg.deals/api> You can now access core pricing data from GG.deals to use in your own tools bots websites and side projects Nov 29 2018 GG.deals browser extension is a must have but first we need to deal with the keyshop integration issues

Once that is sorted our development speed should get better and we will start working on the most requested user features Nov 9 2023 Hello I'm a long time user of gg.deals and the only reason I interacted with the eTail.market website was because they were listed here as an official store Jul 9 2025 If it still doesn't work try redirecting from GG.deals to Eneba on incognito private mode you might have a conflicting cookie from another comparison site Sep 7 2024 Yesterday I made a legitimate purchase and required me to provide an image of a paper receipt in order to complete the transaction

I explained to them that Apr 8 2025 I noticed there are a bunch of third party key sites listed on GG.deals like Eneba Gamivo Kinguin etc

and I'm just genuinely curious does GG.deals actually verify these sellers before putting them up on the site? Like do they personally check if these sites are legit and safe to use? I'm mostly asking from a data privacy point of view Sep 30 2023 Yesterday I made a legitimate purchase and required me to provide an image of a paper receipt in order to complete the transaction

I explained to them that there is no paper receipt since this was an electronic transaction. They replied that they wanted a non-related paper receipt to prove my location. Gameseal is a Phishing Scam Sep 18 2024 This is probably added by Playnite plugin AFAIK it adds games automatically

I would double check if all games detected by Playnite are correct detecting Game Pass games as owned is a known issue.
