Subreddit for the Elixir programming language a dynamic functional language designed for building scalable and maintainable applications

Learn more at <https://elixir-lang.org/> The Elixir Forum for Elixir programming language enthusiasts! May 16 2023 Elixir is a dynamic functional language for building scalable and maintainable applications

OK there are lots of languages that are either or both dynamic and functional and they can all be used to build scalable and maintainable transactions

Elixir runs on the Erlang VM known for creating low latency distributed and fault tolerant. This post is an instruction guide to help you setup your Neovim for Elixir development from scratch. It includes general information on how to configure syntax highlighting and auto completion for Elixir language.

Be aware that the Neovim ecosystem is always moving fast so the content of this post may become outdated for future readers

I'll try my best to keep this post updated to align with Oct 25 2023 Lexical 0.4.0. Has been released! Get it here [Release v0.4.0](https://github.com/elixir-lsp/lexical/releases/tag/v0.4.0) lexical lsp lexical GitHub GitHub

Lexical is a next generation Elixir language server. The main thrust of v0.4 is hover support and quality of life improvements.

Now when you hover over a module or function you'll see relevant documentation types and parameters. We've also spent a lot of Sep 28 2023 At <https://elixir-phoenix-ash.com/> I publish training material for Elixir and Phoenix. Text base tutorials which start at zero

Recently I added material for the Ash Framework. It is a living document which is suitable for beginners. Preface Learning Elixir Phoenix and Ash is a steep climb. No sugar coating

This book aims to make that ascent less steep. It's a guide crafted for beginners. A Mar 14 2018 Senior Fullstack Engineer Elixir Phoenix Myosotis GmbH Berlin Germany Hybrid Berlin Remote Europe. onsite remote region specific

0 360 November 17 2025 Jul 3 2022 For the record Elixir is the language Phoenix is the Rails-ish web framework

Now to what I take your question as though Elixir is having similar issues that Ruby did does in that it is associated with just the one popular usage which is web dev with Phoenix May 28 2023 Elixir has built in application ETS supervisor shell and tcp mesh which if implemented with high quality and bug free in go requires a lot of work

For example if you want to build a distributed database now it would be much
