Jun 29 2007 OurEsperanza s have been planted for over 3 years. For the 3rd year they grow up to 7 feet tall but won t start blooming slightly until late September and better as we get into October. This is while I watch all others start blooming in early spring and prolific through the summer

They re getting sun from about 10ish am until sundown Check out the largest plant identification database in the world. Read plant and insect reference guides at Daves Garden Check out the largest plant identification database in the world

Read plant and insect reference guides at Daves Garden Apr 14 2011 I just returned from the store with a Gold StarEsperanza. I ve been reading about it in the Texas Gardening forum and now I m thinking that I should take it back

Has anyone ever had any success with growing it in zone 7b I north Dallas? If so does it really get as big in zone 7b as it does in Houston or San Antonio

Hardy for zones 8 and up this bush is such a crowd pleaser that some zone 7 gardeners say they ll try to overwinter it. I have a hot south facing spot in my yard where I might try it too Jul 5 2006 btw I took the softwood parts from theEsperanzafor rooting

A few of the trimmed branches were a bit wilted before I even considered trying to root them so I got them in water asap and then selected the better looking ones and only took the soft tips from the ends of the branches Dec 23 2003 A thread in the PlantFiles Pictures forum titled SunriseEsperanza Esperanza Sunrise Sunrise Yellow Bells Sunrise Tecoma h Jun 24 2014 Those posts lists appear to be identical to each other I didn t see the plant I m asking about on it them Tecoma stans AKA Yellow Bells Esperanza etc

Just a mention of Koelreuteria paniculata AKA Golden Rain Tree. which is not the same plant by a long stretch. Thanks for trying to help though Welcome to the famous Dave s Garden website. Join our friendly community that shares tips and ideas for gardens along with seeds and plants.
