Ensure yourradarsystems perform flawlessly

This guide explains howsimulationand analysis tools provide cost effective repeatabletesting accelerating development and boosting reliability Todays militaryradarsfeature complex modes of operation demanding more thoroughtestingduring design to manage schedule risk and reduce probability of failure Aug 10 2024 Discover the vital role ofradarsimulatorsin training andtestingsystems

Learn how they replicate realradaroperations without costly hardware allowing effective user training and validation Oursimulatorsare ideal fortestingconfigurations including anechoic chambers and laboratory based production

Securelytestradarsystems with less risk of adversaries compromising sensitive waveforms Working together with our global customer base we successfully integrated multipleradartestsystemsand enabled our customers totest validate and successfully produceradarsthat are incorporated in many vehicles driving on the roads today The following will set up asimulationofradarreturn with the quadruplet pulse function on the signal generator for a pair of targets that have been illuminated using doublet pulses It is loaded with many features including multipleradarsignalsimulation multiple targetsimulation Doppler ECM Jamming and more

It offers detailed explanations self testingand unlimited practice WithRadar Toolbox you can design simulate analyze and test monostatic bistatic and multifunction radar systems for airborne ground based shipborne and automotive applications With real data playback and seamless integration with ART HMI multi sensor command and control software it offers a virtual replica ofradarsystemsfortestingand analysis ensuring potential issues are resolved before they impact live operations Mar 30 2023 The first half of the article discusses the high fidelitysimulationof each building block in theradarmodel

In the second half of the article the range Doppler plot generated from the high fidelityradarmodel is compared and validated using the range Doppler plot from a realradartrial.
