Sep 19 2022 Exoticareview covering the edition released by The Criterion Collection

Read about the picture audio extras and more Oct 2 2023 Was working on anotherexotica I tested my working one but then I put it back in the original cabinet now there is no force feedback I haven t touched anything I plugged everything back in the way it was I swapped the driver board with a known working one that didn t work I swapped the Feb 26 2020 My cruising seat is not sliding forward and backwards and Im wondering after opening the seat where the springs are supposed to go? There are four finger like springs that stick out and I dont know if I need to tuck them under the lever thats responsible for moving the seat forward and Nov 27 2008 Google isn t much help with this one and neither is the dead battery society

I picked up an upright Cruis nExoticaand noticed that it has a lithium battery zero power RAM chip at U26

Does this contain data? Is it something I need to replace? I m worried this is some form of suicide battery Jul 23 2008 On the course select screen if you hold the low cam button it gives you 2 additional hidden track options for Hong Kong medium in place of Atlantis Easy and Ireland Hard in place of Tibet Hard which are normally only accessible inExoticamode

3

On the car select screen the low cam button lets you cycle through additional banks of Apr 15 2008 1150Exoticaby swo17 Wed Jun 15 2022 5 48 pmExoticaOne of the defining independent films of the 1990s Atom Egoyan s mesmerizing international breakthroughExoticatakes the conventions of the psychological thriller into bold new territoryunsettling dreamlike and empathetic Nov 13 2006 Re cruiss\ nexoticaHELP ON PINOUTS TO PUT IN USA CAB Thanks but the manual there and all the ones ive seen dont have the same drawing like in the usa that shows the main board and then labels the aux pins

I have built several usa s into upright cabs wth just a pot wheel and they show the pinouts perfectly on the fold out from the usa Mar 15 2010 Steering worked great before upgrading from USA toExotica. Game works fine now but no Feedback

Wheel will turn all the way to the left during game but during diagnostics not move. What did I miss or do wrong when swapping the boards

I did put the U8 Chip in as well Jan 3 2014 Two board issues remain with what has become a project Cruis nExotica 1 F3 .63Amp fast blow blows on the Wheel Driver Board. The wheel motor seems to provide force but no feedback actual in game response
