Jun 9 2009 Hey everyone Im trying to explain to a friend of mine the difference between havingexperiencein of with and to tell you the truth think Ive done more damage than good with my rambling explanations so heres hoping we can get some collective explanations on the subject

I have a lot of Oct 14 2014 From myexperienceis possible but not common at least in BE. For example if you look at the British National Corpus you find 19 examples compared with 194 for in myexperience. In the US corpus COCA there is a similar pattern 165 from compared with 750 in

Judging from myexperience it is true May 2 2008 When you say an experience you are referring to a singleexperience like I had an interestingexperiencewhile I was in Italy. But when you are referring toexperiencethat you acquired while working on a job you refer to it asexperiencecollectively

Strong just isn t a word used to describeexperience Sep 6 2010 I agree Sophie experiencein often relates to an activity in which it is possible to become proficient or specialise where different degrees ofexperiencecan be gained

Experienceof is broader and relates to one s exposure to something a place activity emotion etc. However I feel that A is of course correct but B is possibly incorrect it anyway jars slightly unless it is Oct 3 2014 I haveexperienceworking with no of

The COCA AE Corpus has many examples of haveexperienceof + gerund. Here is one Well we haveexperienceof operating in regimes in every part of the world and they cover many different political shades. So we will use our expertise to try to push the boundaries of what can be reported

Source Feb 1 2019 Cambridge doesn t give an example of experiencewith but it does give one for experiencein experiencein sth Theirexperiencein marketing and promotion has brought excellent results

Which is pretty similar to Oxford s example I had someexperiencein fashion design Apr 14 2025 Hello I would like to ask a question about the usage of the phrase two yearsexperience in this sentence I am a BA journalism graduate with two yearsexperiencein campus journalism

Context I was helping my friend complete the first sentence of his summary in his resume and came Dec 23 2014 You can say wideexperience which is why you get google hits but it doesn t match this context

Wideexperience is used when talking about a variety ofexperience whereas vast extensive are used when talking about a lot ofexperience

Since the sentence doesn t indicate any kind of range of different experiences
