Oct 22 2015 Today there are 1 470 offshore oil rigs around the world. The chart below based on data from Statista shows where they are located as of May 2015

Seven regions have more than 100 oil rigs which can be broadly divided into four areas Apr 2 2024 Here are 3 ways to break the offshore wind impasse Offshore platforms can be recycled Dismantling and recycling end of life oil and gas platforms is one option for decommissioning

An example is the Brent Delta platform one of four installations from the Brent oil and gas field northeast of the Shetland Islands in the North Sea Mar 3 2025 The move was followed by a directive that aimed to roll back regulations on the oil and gas sector and accelerate drilling and pipeline development

We will drill baby drill Trump said in his inauguration speech adding that the US has the largest amount of oil and gas of any country on Earth and we are going to use it Jan 7 2025 The Future of Jobs Survey also asked respondents whether they expected to offshore parts of their workforce or move operations closer to home through reshoring nearshoring or friendshoring Oct 12 2021 Beyond the immediate and visible damage caused to sea life oil spills continue to affect marine life and the environment for years

Heres what you need to know Chairman Det Norske Veritas South East Asia Committee. Member Southeast Asia Regional Committee American Bureau of Shipping Special Committee on Mobile Offshore Drilling Units Board of Trustees Singapore University of Technology and Design

Singapore s Non Resident Ambassador to Brazil May 6 2025 The offshore wind sector offers a promising model

For example innovations such as Shanghai Electric Wind Powers recyclable wind turbine blades demonstrate how integrating capital cutting edge technologies and shared expertise can drive progress Aug 29 2024 Global low carbon hydrogen demand is forecast to reach almost 200 million tonnes per annum by 2050

As the global hydrogen industry faces financial and demand side challenges many are increasingly looking to white hydrogen as an efficient alternative

Here are five of the most pressing questions about the white hydrogen industry answered Time to Reconsider Off shore drilling in Lake Michigan? In these times of our drive for energy independence shouldn t we open Lake Michigan for offshore drilling? It is well known that Michigan s donut shaped oil patch extends out under the lake and would surely yield a great amount of oil to help our energy security Feb 27 2020 The Chinese company is proposing to conduct an exploration drilling project within two offshore exploration licenses in the Flemish Pass Basin
