Apr 7 2025 Driver Releases and Discussions Fanatec Community Still pleased with choco butfanaticteam suggested to have a select s10 fin. I bought a 41cm second hand and give it a try. My straps are outside and back all the way back. Start with middle setting of mast base

Depending on wind and chop i move it. But middle seems what i use most. Move forward in chop. Next time i try a severne mach 2 7.8 Hi there Sounds like the 104 is covering a lot of your neeed

You need to look at the widths of both boards the FW104 is 63cm wide the Skate 107 is 66cm wide

The FreeWave is more oriented towards a very broad range of conditions has a wave outline and a quite different rocker line to the Skate the skate has fuller rails is more compact in outline and a quite flat rocker lone

all Dec 16 2025 Fanatec App Fanatec Community Mar 30 2023 Hi I have currently the Aero Free 1250 250 and questioning about Aero Glide design. As a consumer I can t perceive the PROs CONs off the 2 range

I am a big fan ofFanaticand ride on Sky Free TE 5 5 105L because I am 86kg dry from 1750 and even 2000 yes! on super ligh condition. I don t know if I will perceive a difference between Glide and Free on my Sky Wing 5 4 95L

I m not yet Access and download the latest Fanatec software drivers manuals and other resources for your sim racing hardware fin size 46 52 I like the back straps all the way back and the front straps almost all the way forward

The plug positions allow for everyone to find their favorite personal stance though. For 8.5 and 9.3 you have the right racing machine. Have fun tuning and hope you enjoy the fine balanced trim speed and comfort of this board

Peter H24 Mar 3 2022 Join the Fanatec community to discuss Gran Turismo share experiences and find tips for enhancing your sim racing experience 4 days ago Fanatec is the leading brand for dedicated sim racing hardware including force feedback steering wheels pedals and complete cockpits for PlayStation Xbox and PC based racing simulators Im trying to decide between a Gecko 146 or 133 and the Blast 145 both 2019s

I use a North 8.3 S type on relatively flat water weight 195lbs and have no trouble with harness planing and water starts after 35 yrs in the sport. Im still working on planing out of my jibes. Based on reviews and design features the Blast should have a higher top end. My question is.
