Find your device with your Wear OS watch. If you lose your Android phone or tablet that's connected to a Wear OS smartwatch, you can find it with your watch. Learn how to find your phone with your watch. Learn how to set screen lock on your device.

By default your Android device stores encrypted recent locations with Google and participates in the FindHub network, a crowdsourced network of Android devices that uses end-to-end encrypted location information to help Android users find their lost devices. To find your friends and family, you can use the FindHub app to share your location with others. Find others' location on a map. Take a few different actions for those shares. Set up your Find. You can let a friend or family member share and locate a device or accessory like your car keys that have a tracker tag.

You can stop sharing devices at any time and remove devices and accessories. Learn how to set screen lock on your device.

By default your Android device stores encrypted recent locations with Google and participates in the FindHub network, a crowdsourced network of Android devices that uses end-to-end encrypted location information to help Android users find their lost devices. If you want the FindHub network to help you find your lost items in remote areas, you can share location info through the network to help others find lost items even when your device is the only one that has detected and shared a location for the item.

People who use this option help each other find items in both busy and remote areas. Search and use find and replace. You can find and replace words in a document, spreadsheet, or presentation with Google Docs, Sheets, and Slides.

You can also search within a file using the keyboard shortcut Ctrl + f + f on a Mac. Use Google Flights to find and book round trip, one-way, and multi-city tickets. Use an interactive calendar and price graph to find the best fares. Filter your flight search by cabin class, airlines, and number of stops.

Google Flights allows you to book flights from more than 300 airline and online travel agency partners. Find and delete activity like searches you did and websites you visited on My Activity. Tip: To add more security, you can require an extra verification step to view your full history on My Activity.

You can find and delete your photos, emails, documents, and other files by visiting the relevant Google product such as Findlost photos, videos. When you turn on backup, your photos are stored in photos.google. Important: If you're inactive in Google Photos for 2 years or more, your content may be deleted.

Learn about the Google Photos inactivity policy.
