Jan 21 2020 Hey. I want to put 18 inch rims onto my 2009 VW Passat R Line BUT! The Car has 17 inch rims as standard right? but I want to put 18 inch aftermarket rims on it instead for that more aggressive look

Is it possible? Are there any ramifications of doing this? Advice needed thanks

Would 235 70 r16 fit on stock rims or would I need new ones? Thanks in advance! However I called T Sportline another aftermarket wheel maker for Tesla and they said they don t make 18 for the Model Y because they don t think it s a good idea to run wheels that small. Archived post
