Could thefleshlightboost be the throat goat? My First flight ended with two loads and a shaking orgasm usually I need 2 3 flights to really break a sleeve In so I was pleasantly surprised

The mouth is very detailed and soft the teeth are incredibly soft I dont feel as though they are grating over my dick with each thrust Sub dedicated to the male sex toy line ofFleshlight Random notes aboutFleshlightuse Heres another vote for Talcum powder if you can find the pure stuff

Powdering the outside really does change the experience. I have theFleshlightlaunch. If it was a bit easier to use and quieter Id be using that thing all the time

As is I get paranoid when anyone is in an adjacent room A realisticfleshlightwould not sell well because a real vagina doesnt have all these textures designed to make you cum

If you think about it the sensation of sex with vagina at its core isnt really special Trans girls pleasuring themselves with fleshlights Oct 20 2023
FleshlightGo Torque was my first and very fun for a while. The cleaning was a bit annoying but the real pain was drying it out

It feels good but requires a lot of lube bc there are aggressive chambers that can hurt otherwise. 6.5 10 My second was a Blowmotion male vibrator. The experience is extremely intense but not even a little realistic May 27 2020 My dudes my LVL UP just came in and I m super pumped

Later also literally. Nevertheless just a question to the veteran FLyers do you guys have any general tips and tricks around the usage storage cleaning etc

you would have definitely wanted to know on your first uses? Really anything you would have wanted to know on your first few flights which you gained by experience is welcome here Welcome to r homemadefleshlight. Share your methods on how to make homemade fleshlights

The materials used must be cheap and easy to find Dec 23 2023 Ultrasoft DIYfleshlightl own about 5 fleshlights but this one is so special I use it most of the time. The stimulation is so subtle and gentle. The orgasm buildup and release feels so satisfying

It can take ages to cum with it but the edging is what makes it special. Things needed 2.5 inch PVC pipe with a bottle cut and glued to one end

Heat shrink tube glued to the bottle cap for air I know I cant be the only one that likes to read about how peoples first time using afleshlightwent so lets share our experiences with each other in the comments and make friends!.
