Jun 12 2024 I came across the legendary Foxy lady palm. The hybrid Wodyetia bifurcata x Veitchia arecina. I think I am madly in love. Lol but really I've only heard amazing things from this palm and I absolutely love the looks from it

Not to mention I read that it can handle down to 25F! All this being said Jun 4 2008 John you are correct the two foxy ladies in the photo at Flecker gardens one variegated and smaller are from the very first batch of foxy lady palms cultivated and I understand Mikey himself played a significant part in making the first seed observations of this hybrid palm which has entranced the palm community ever since Jun 20 2022 Alas the time has come

I've been growing this foxy lady a few years now and I think it's time to rehome her. It's in a 15 gal but it ideally should go in the ground soon it's filled in that pot already

I was really ambitious intending to grow her up here but Fresno winters will trash it ever Jun 3 2013 They say the foxy lady is a rocket but the growth rate appears to be the same as seedlings. Erik the Foxtails were planted many months before the F1 Foxy ladies

I have numerous large ones in the garden I would say the Foxy ladies grow more rapidly. The only exception would be the ones that are extremely variegated Oct 5 2018 This Foxy Lady Palm is still standing despite the lean and creased oozing vertical stripe. It's getting close to the end for me though

Since the lean is headed toward the overhead phone and cable lines not power I'll take it down before it comes down on its own Aug 11 2020 After many years and trees that are ungodly tall my foxy lady 1 of 2 dropped 2 very ripe very real looking seeds

With only 2 to work with I of course will just hope to see if they germinate

I have plenty of foxtails and Veitchia arecina in the yard so maybe it did a cross back with one of the Mar 21 2020 So I am curious if Foxy Lady Palms are fertile? This was acquired as a Foxy Lady but the trunk is different than one of my other ones in that it doesn't have the bulge from the Wodyetia bifurcata parent

The one I'm growing in Leucadia is from the same source and purchased about the same time a Jul 19 2019 Foxy Lady palm By David878 July 19 2019 in DISCUSSING PALM TREES WORLDWIDE Share Followers 1 Apr 16 2015 Foxy Lady palms are incredibly fast growing palms and I think yours has a fighting chance if you get it in the ground ASAP and keep it's rootball watered

Mine's established and I still water it almost daily. Jim in Los Altos CA SF Bay
