Feb 3 2024 Danbooru obviously has a fuck ton of porn it s partly a porn website. But it s more balanced than most similar sites and there s a bigger interest in non porn work too Mar 27 2023 I was interested in finding correlations between tags on Danbooru so I created Danbooru Tags Explorer

Along the way I also became interested in visualizing some of the trends in Danbooru s image tags and metadata. I hope these graphs may be of interest to other people as well

Most of the time was spent writing code to transform the raw data so that it could be easily processed in Python Aug 25 2023 Danbooru is the single most commonly used dataset for training AI on Anime

Idk what you re going on about I use this dataset and augment it with my own AI generated images using real ones as input to img2img to increase sample size Feb 9 2024 Welcome to the unofficial ComfyUI subreddit

Please share your tips tricks and workflows for using this software to create your AI art. Please keep posted images SFW. And above all BE NICE. A lot of people are just discovering this technology and want to show off what they created

Belittling their efforts will get you banned

Also if this is new and exciting to you feel free to post I don t know if this is a problem or if it s really supposed to be this way but one of my big irritations with danbooru tags is that for example an image with a woman with large breasts also gets the tags breasts small breasts medium breasts

This happens with practically almost all the tags Dec 27 2022 Due to the minimal censorship in place on booru style image sharing websites models trained on actual Danbooru image sets usually have a strong NSFW bias

However it is possible to use DeepDanbooru captioning on other images sets even SFW image sets Danbooru is a gallery for consumers not for artists

It s focused on the wants and needs of its audience with the people who actually make the work just being convenient providers of content Feb 10 2016 This mostly applies to Pixiv but the question also applies to dedicated subreddits and imageboards such as danbooru anything ending in booru really UPDATE So after asking around some hentai related communities they pointed me to California Penal code 311.11 in which one of the sections state that drawings are exempt from CP laws Jun 4 2023 402 votes 64 comments

trueHi everyone I have trained and hosted a Vision Transformer on the Danbooru Dataset as well as hosted a Float16 optimized GPU version of BLIP2 on my website
