Apr 5 2022 Gacha heat is a type of gacha which shows lots of nudity sexual content

Most of the time people doing gacha heat are kids unaware of what they are doing to the gacha community welcome to Gacha_Rule34 since they're no rules you can post anything on this community it can be vore rape heat literally anything so enjoy. Welcome UwU We allow all types even rape incest and gacha porn! Yes GachaLife and its one billion spin offs is like a dress up game where you can pose characters and GachaHeat is a grossly popular niche on YouTube where kids use GachaLife to make sexual scenes

And I assume this game is a copy of Gacha but with different assets to make Heat content easier to make. Been journeying through loads of Gacha games for a few years now and I can say with confidence I have had a great experience with garbage

Recently however I have been exposed to the H Gacha game Ark Recode and this greatly levelled my expectations. The game is on Nutaku and EroLabs and has been currently ranking 1 on Erolabs game ranking for a while now and with good reason why

This game r gacha_school_heat Hi! This is one of the gacha heat community's! I am trying to grow it our rules are Rule 1 post introductions to your rules no gacha heat no inappropriate content gacha heat sex porn etc

no racism don't just people by their looks sexuality beliefs no spam don't repost more than 3 times in less than 24 hours no hate do not send threats rude messages hate etc

towards other people Apr 25 2022 You gotta specifically type in gacha heat porn or sex for it to send you to a porn site just typing in gacha heat won't do shit 79 votes 14 comments. 61K subscribers in the GachaClub community. Our community provides a safe space for ALL users of Gacha Life club etc

My main gacha is Girls Frontline and the characters' arts are censored by default on the Global server. However a lot of players on Global know about a secret uncensoring recipe in the unit production system that allows you to download the uncensored arts when restarting the app and see them in game.
