Jan 27 2022 People are increasingly accessing online courses to help them navigate today's ever changing labour market. Online learning platform Coursera recorded 20 million new student registrations in 2021. The highest rate of new learner growth online came from emerging economies

Online learning is an important tool helping to close the widening global skills gap Feb 6 2015 Online learning has been viewed as the disruptive innovation in higher education today with traditional classroom instruction at risk of being replaced by superstar professors teaching elaborate courses developed by teams or by Massive Open Online Courses MOOCs offering instruction to students worldwide see e.g

Christensen and Eyring 2011 Cowen and Tabarrok 2014. Even if they do Sep 2 2016 The second form of online education consists of professional training and certification preparation

Such online learning is usually targeted at professionals or students seeking training or preparing for certification exams

Popular courses include training in foreign languages accounting and nursing Jun 13 2023 McKinsey's survey of 7 000 higher education students finds that they want flexibility convenience and access to support from instructors in online learning Jun 30 2022 Higher education institutions worldwide faced challenges when switching to online learning due to the COVID 19 pandemic

However the experience highlighted how online learning could make education more engaging and accessible for many students

Lecturers and teachers should embrace the opportunities offered by digital distance learning to revolutionize education for the better Apr 29 2020 How is the education sector responding to COVID 19? In response to significant demand many online learning platforms are offering free access to their services including platforms like BYJUS a Bangalore based educational technology and online tutoring firm founded in 2011 which is now the world's most highly valued edtech company Nov 13 2020 The implementation of online education in South Korea has been relatively smooth thanks to the country's excellent internet infrastructure

However many students and teachers have expressed dissatisfaction with this new paradigm

Moving education online as South Korea's experiences demonstrate requires long term systemic change backed up with policy Oct 13 2020 Coursera's most popular courses give a snapshot of what the world wants to learn
