Sir Timothy John Berners Lee born 8 June 1955 [1] also known as TimBL is an English computer scientist best known as the inventor of the World Wide Web HTML the URL system and HTTP

He is a professorial research fellow at the University of Oxford [2] and a professor emeritus at the Massachusetts Institute of Technology MIT

[3][4] Apr 30 2023 While Robert Kahn Vint Cerf and Tim Berners Lee are rightly hailed as the inventors of the internet the full story is much more complicated

Between the 1960s and the 1990s computer scientists around the world slowly but surely began to invent the internet piece by piece Computer scientists Vinton Cerf and Bob Kahn are credited with inventing the Internet communication protocols we use today and the system referred to as the Internet

How was the Internet invented? Learn more about the history and development of the Internet Jul 22 2023 Berners Lee certainly invented the web browser and created the worlds first website info.cern on 20 December 1990 which was viewable at CERN It was written by Nicola Pellow during her student work placement at CERN

In 1991 Berners Lee released his WWW software. It included the line mode browser Web server software and a library for developers

In March 1991 the software became available to colleagues using CERN computers Sir Tim Berners Lee a British computer scientist has been credited as the inventor of the World Wide Web

Upon graduation from the University of Oxford in 1976 Berners Leedesignedcomputer software at Plessey Telecommunications Ltd Jun 11 2024 In 1962 a scientist from ARPA named J.C.R. Licklider proposed a solution to this problem a intergalactic network of computers that could talk to one another

Such a network would enable After graduating from Oxford University Berners Lee became a software engineer at CERN the large particle physics laboratory near Geneva Switzerland

Scientists come from all over the world to use its accelerators but Sir Tim noticed that they were having difficulty sharing information Jul 10 2025 WhoDesignedDesign? Once just a word now a worldviewhow a 20th century invention came to shape everything from your phone to your future The World Wide Web WWW W3 or simply the Web is a global information medium that users can access via computers connected to the Internet

The term is often used as a synonym for the Internet but the Web is a service that operates over the Internet just as email and videoconferencing do. The
