Question 4 February 2008 11 Answers Newest 10 April 2010 A female age 30 35 anonymous writes this is quite a personal question but i am really desperate to have it answered so i hope someone will be able to

when you give a guy who is uncircumsized a hand job do you just do it over their foreskin or do you roll the foreskin back or what? cos i heard that foreskin is very painful When coming home early from a hunting trip I found a used condom on our bedside table! Should I confront her? And what about the extraordinarily amount of semen does that mean she has a much younger lover? On the other hand I don t expect him to kiss me with cum on my lips after I do him because I d think he had bi sexual tendencies so wipe you face and enjoy the intimate moments of kissing.
