\$11.625 TB for those doing the math so solid deal for new

According to this review on best buy that was promoted free incentive review the drive is an Exos inside so should be solid even though there s only a 1yr warranty on the usb

Don t know if shucking the drive and doing a warranty on the drive itself would work and yield you a longer warranty like the 3yr 5yr that people have done Dec 20 2018 Some users have recently had their accounts hijacked

It seems that the now defunct EVGA forums might have compromised your password there and seems many are using the same PW here. We would suggest you UPDATE YOUR PASSWORD and TURN ON 2FA for your account here to further secure it. None of the compromised accounts had 2FA turned on

Once you have enabled 2FA your account will be updated soon Jul 3 2009
