HWiNFO has available as an Installer and Portable version for Windows 32 64 bit and Portable version for DOS May 27 2025 Hey everyone! After constantly helping friends and fellow PC builders choose the right GPU Ive put together a comprehensive GPU comparison post that highlights the most important specs and differences between current gen AMD and NVIDIA cards

Whether you re gaming rendering or building a Mar 17 2020 Join the discussion about the latest in computerhardware software and gadgets in the Tom sHardwareCommunity! Catch everything from expert opinion to casual buzz in our community of millions Dec 16 2024 To my surprise thehardwarereserved memory is now only 74MB and 15.9GB is usable

This is amazing really. I ve reseated the RAM countless times before but now it finally worked. I dont know what solved the issuewhether it was reseating the CPU or the RAMbut Im just happy that its fixed and hope it stays this way Jun 25 2021 Question Yourhardwaresettings have changed

? beauknowsdiddly Dec 14 2025 6 Saturday at 3 56 AM Nov 5 2021 Hi so every now and then my pc crashes. My screen turns off and my keyboard and mouse stop working. The only way I can turn off my pc after this happens is by manually turning off the PSU

Now I looked into it a little bit and Windows is telling me that itshardwarerelated. I m getting two Jan 17 2017 Hi I just upgraded my Motherboard and CPU and now I can t activate the Windows I have tried the following steps Sign in as an administrator

Select the Start button then select Settings > System > Activation > Troubleshoot

The troubleshooter will show Windows cant be activated on Jan 9 2012 I have on several occasions gotten BSoDs because of the atillk64.sys driver and while I know it has something to do with DiagnosticsHardwareAbstraction it has always been an annoyance

When I turn on Virtualization in BIOS and Windows 11 loads with Core Isolation enabled it will outright.
