He said she said has a sense that not only does an interaction look different from the two sides but of an imbroglio

There are a couple of moments I can think of that are he said she said Dec 1 2015 A lot depends on the specific context but roughly speaking hassaid implies at some unspecified time in the past while said refers to a specific occurrence

For instance I ran into Steve yesterday andhe saidthathejust got back from vacation at Big Sur. But the odd thing is that in earlier conversations Steve hassaidthathehates the ocean and hates California. A little Aug 2 2018 Using commas before and afterhe she said

[closed] Ask Question Asked 7 years 4 months ago Modified 5 years 2 months ago May 11 2017 I have been noticing in books that I have read lately that the authors are making a quote with a question mark yet write he saidorshe saidinstead ofheasked orsheasked

Examples How do yo Aug 7 2015 How would I go about including ahe said she saidstatement? Ask Question Asked 10 years 4 months ago Modified 9 years 3 months ago He said sheis pretty. But not if running a quote into a sentence as in Hedescribed her as pretty and I had to agree

Left and right quotes like and should be favoured where possible but informal contexts can tolerate straight quote like Sep 29 2015 The comma is necessary when the quotation is beingsaid. To use you example He said I ll be there in ten minutes. requires a comma

If however you re quoting someone mid sentence you only need the comma if it s a full sentence. For a short phrase like just drive that fits neatly into the sentence the comma isn t necessary and neither is the capitalization

You always use a comma Dec 17 2014 The ordinary way is this he saidyes without quotation marks about yes and without a capital she saidno ditto

Because Chicago presents all of its in text examples in italics it had to run yes and no in the examples above in roman non italic type but in actual practice he she said would be in roman and yes or no would be in italics Aug 9 2022 To me did what yousaidyou would do and followed through with on sound casual and colloquial

I m sure there s a better more refined way of conveying the same information without sounding unsophisticated or common He said QQQ. QQQ he said. QQQ said he

In particular in what situations is the inverted VS 1 order ofsaid hepreferred over either or both of the two versions that usehe saidin the normal SV 2 order? Are these nothing more than three equal options that vary by individual writers
