I just bought a Xerox B410 printer for context i have a foil printing business and i use laser printers to print the text than apply foil by heat in a foil laminator

So the problem is that when i print it leaves like a trail of black toner in the background i tried every configuration and nothing works

I used to have a Brother dcp l2540dw for this job and it printed without problems until Feb 1 2023 An office for my company was relocated to a new building last week. This office has two Xerox printers an AltaLink C8045 and a WorkCentre 6515DN. They both have YSoft SAFEQ installed on them

The network at the previous office was decommissioned before the IP addresses on the printers could be updated to the new IP range subnet mask and gateway. Now the printers are at the new location

The Mar 9 2024 Hello friends I ve lately got my hands on a xerox workcentre 6515 that was gifted to me by a colleague because of this 043 373 error. I would like to Dec 16 2020 Dell printers are dell branded lexmark printers

Lexmark inkjet printers were very cheap now they sell only laser printers which have very expensive toner cartridges. Xerox I worked with phaser 3010 and it was great small and fast for its size. It had great rollers that didn t damage paper but after some time it had jam issues

Toner was cheap for it. I also used kyocera fs 1061dn for Dec 4 2023 Happened to me also since 1 day ago got the B315 and can no longer locate the scanner in the Xerox Print and Scan Experience. Printer works just fine Jul 27 2021 Ok

Have you called xerox? Most of the equipment nowadays requires a software tool to reset the admin pw that only xerox technicians can operate

I would recommend calling and see if they can help remotely or maybe under warranty if it s under 6 months old Dec 8 2023 Over the last couple of years we have been replacing our old Xerox printers with new ones a mix of VersaLink C7030 C405 AltaLink C8145 and B8155

I keep getting the error Failed login attempt limit has been reached Dec 19 2023 The replacement cartridge has an identical part number to the recently emptied cartridge and both are authentic Xerox cartridges

Printer sticker calls for a 006R1514 yellow cartridge the existing and replacement cartridges show 006R01514 I called Xerox support and unfortunately a tech cannot come to me until sometime on Monday

I advised the rep that I work in IT Support and if they could provide
