May 6 2017 Big List of Developer tools for adultgamesThis is a list I will update that is meant to include various developer tools and websites that can be used to make adultgames Oct 19 2022 Just like the first comment said https tfgames is hands down the best source

You can search forgamesdepending on the style you prefer If you like text based and choose your own adventure typegames there are a TON just look forgamestaggedHTML. If you like old style JRPGs you can look for RPG Makergames

For visual novel andgameswith lots of graphics try RenPy and RAGs Jul 17 2021 Additionally gamesmust be sourced within 10 minutes of posting unless you are asking for the source or recommendations

Sourcing includes both the name of the game as well as a link to the game Jun 4 2023 Mods feel free to let me know if this kind of content is not allowed. But I ve been working on an AI image based game though admittedly I heavily photoshop the images and a few images were not created with AI

I haven t been using the text AI due to not quite getting a feel for it yet but I have been using image generation from multiple sources including novelai. If you re interested Dec 3 2023 Most NSFWgamesare made using the Twine Sugarcube engine

It s a fairly simple text based engine which exportsgamesas .htmlfiles that you can run in your web browser. You can easily integrate pictures and gifs with it too

If you re planning on making a life sim CYOA or RPG style game I would suggest that as a good place to start Any way to cheat aHTMLgame that is saved and then played on a browser instead of it being hosted on a site? Tried to use CE on Chrome and Firefox for a game that is saved but when I choose the right process the value can t be found after the 1st search Dec 20 2023 As a woman with an appreciation for femboys thanks for the convenient list! Oct 19 2019 I have a samsung chromebook and I can download and runhtml gamesperfectly fine except without fail the images never load

Is this a limitation of the device or is there some way to fix this? I have changed 3 things 1> Stopped playinggameswhich killed my social life 2> Reduced the frequency of watching porns and masturbating 3> Reduced my digital time and focus more on physical life and go for walking exercising regularly.
