Mar 20 2023 I need to get some hydraulic fluid for my 906m. What are you guys using? Dec 26 2024 I read about TO 4 but as far as I understand there is no transmission right? it's just hydo oil engine oil and gear oil in final drives. I want to replace these oils and hydrofilters

Any suggestions with details I will greatly appreciate Sep 20 2018 New Holland LS170 hydrofluid change chaincase fluid change and it creeps forward UpNorth Mini Excavating Sep 20 2018 1 2 Next U Dec 6 2012 I'm finally starting to work on my 963

Its problem I believe is that the hydro oil is getting clear into the flywheel case and coming out the breather

Is there a flywheel case and then a gear case going from the engine back and then the hydro? There are 2 breathers on top one on the Sep 24 2017 Is there any alternative to the Cat HYDO oil for hydraulic system? I saw some Traveller brand Premium Trans Hydraulic Fluid at Tractor Supply but it only lists Cat T0 2 designation which is an older one so I'm afraid to buy it

Is there any aftermarket oil that matches the HYDO spec Cat Aug 7 2023 Sounds more like you have engine stuff rather than hydro stuff

Remember that with load sensing equipment they are designed to slow down to match engine output Mar 23 2023 I have a 2012 CAT 252B3 with 2 400 hours on it and C3.4 engine s/n TNK01281 and yesterday while running the snow blower the fan motor on the blower apparently lost its bearings and dyed all the snow coming out of the chute a nice hydraulic oil yellow

My plan was to buy CAT Hydo Advanced 10 to Sep 6 2023 An SAE10W hydraulic oil from any reputable oil company Mobil Shell Conco etc would be my suggestion. They will all produce an oil of an equivalent specification to Cat HYDO 10W

Mobil used to produce the oil for Cat I'm not sure if they still do. Look for any oil that passes the Eaton Vickers 35VQ25 Vane Pump test that is a good guideline. Beware of spec sheets that say designed to Feb 13 2025 About 2 weeks ago I lost the brakes [again] on my 74 Chevy C60

The hydrovac had gone bad a few years ago I don't use the truck much few hundred miles a year so I was limited on where I'd go. I dumped a load of logs here at home they tend to push the truck ahead as they come out hit the Mar 23 2010 I need some help with the brakes on our truck

It's a 77 GMC 6500 with hydraulic brakes and hydro boost. Both the master cylinder and booster are shot but I'm having trouble finding parts

Apparently the hydro boost stuff wasn't a common option and it looks like the
